

**PCG LANAI NON-CONFORMING PORTIONS FOR REMOVAL
As ordered by the Hawaii Department of Plans and Permitting**

This portion of the Lanai roof was extended illegally in 1981. It is affecting the issuance of a building permit for the new PCG building. The requirement to remove it is for fire safety, in order to create a separation between the new building and the old building. The black fence marks the construction area of the new PCG building.

This is another portion of the Lanai, which was extended in 1981 beyond the permitted area (the tiled area to the right of the vehicle). It is encroaching on the property line of the PCG's neighbor, the Hawaii Baptist Academy (the area to the left of the picture).

Attachment A: Photos

Photo 1: Non-Conforming Structure over North drive flagged by the Zoning Department.

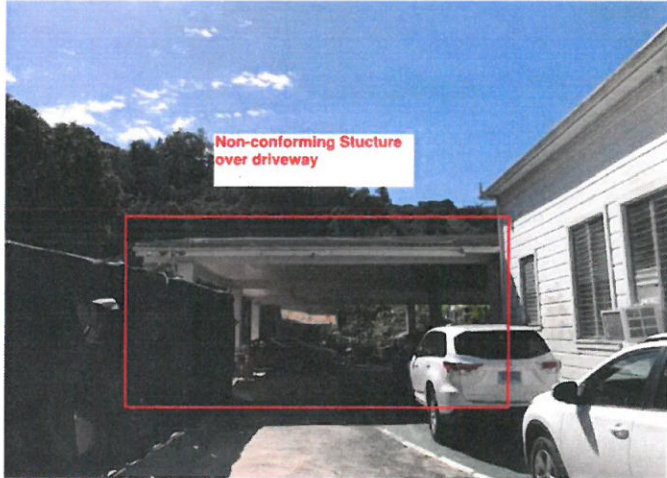

Photo 2: Non-Conforming Structure over rear drive.

Image 1: Areas highlighted in blue/red indicate the non-conforming structure.
